

Kotobee Reader Technical Specifications

Kotobee Reader, LOMA's preferred e-reader, is available for free download at:

<https://www.kotobee.com/products/reader>

Learners who wish to access LOMA's e-book materials from work may need to ask their companies' Information Technology teams to consider "whitelisting" -- or approving -- the Kotobee Reader for learners to download.

The Kotobee Reader is built on standard web technologies (HTML, CSS, and JavaScript) and uses the Ionic Framework.

If individual learners or organizations wish to verify the security of the Kotobee reader, we suggest that you run the installation file through a virus checker, such as the one found here:

<https://www.virustotal.com/gui/home/upload>

* To test the WINDOWS installation file, test this URL: <https://www.kotobee.com/download/reader/win>

* To test the MAC installation file, test this URL: <https://www.kotobee.com/download/reader/mac>
